## DETAILED ACTION

### *Claim Objections*

1 Claims 4-7 objected to under 37 CFR 1.75(c) as being in improper form because a multiple dependent claim should refer to other claims in the alternative only, and/or, can not depend from any other multiple dependent claim. See MPEP § 608.01(n). Accordingly, the claims 4-7 not been further treated on the merits.

### *Claim Rejections - 35 USC § 102*

2 The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1 and 3 are rejected under 35 U.S.C. 102(e) as being anticipated by Dias (US6,540,791 B1).

Dias (US' 791 B1) teaches a hair bleaching composition comprising oxidizing agents (see col. 4, lines 62-68), alkalizing agents (see col. 7, lines 34-50), cationic polymers (see col. 15, line 44), dimethylpolysiloxane (highly polymerized silicone) (see col. 17, lines 59-64) and alkylamino substituted silicone as amodimethicone (amino-modified silicone) as claimed in claim 1 (see col. 18, lines 20-37) and cetearyl alcohol (higher alcohol) as claimed in claim 3 (see col. 15, line 22-23). Dias (US' 791 B1) teaches all the limitations of the instant claims. Hence, Dias (US' 791 B1) anticipates the claims.

***Claim Rejections - 35 USC § 103***

3 The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claim 2 is rejected under 35 U.S.C. 103(a) as being unpatentable over Dias (US 6,540,791 B1).

Dias (US' 791 B1) teaches a hair bleaching composition comprising dimethyl-polysiloxane (highly polymerized silicone) (see col. 17, lines 59-64) and alkylamino substituted silicone as amodimethicone (amino-modified silicone) as claimed (see col. 18, lines 20-37).

The instant claim differs from the reference by reciting the ratio between the silicone and amino, imino and ammonia groups in the amino-modified silicone in the composition.

However, it would have been obvious to one having ordinary skill in the art at the time the invention was made to formulate such a composition by using the similar ratio of the claimed groups to arrive at the claimed invention because the reference clearly teaches the claimed amino-modified silicone (amodimethicone) (see col. 18, formula (XVI)), and, thus, a person of the ordinary skill in the art would expect such a polymer to have similar ratio to those claimed, absent unexpected results.

Further, as the optimization of results, a patent will not be granted based upon the optimization of result effective variable when the optimization is obtained through routine experimentation unless there is a showing of unexpected results which properly rebuts the prima facie case of obviousness, see *In re Boesch*, 617 F.2d 272, 276, 205 USPQ 215, 219 (CCPA

1980). See also *In re Woodruff*, 919 F. 2d 1575, 1578, 16 USPQ2d 1934, 1936-37 (Fed. Cir. 1990), and *In re Aller*, 220 F.2d 454, 456, 105 USPQ 233, 235 (CCPA 1955).
